Order Terms & Contact

From enquiry to shipment

Enquiry > Confirm specifications and colors > Samples > Deposit > Production > Balance > Shipment

Samples	Preparation: 3-7 days for standard designs and moderate quantities. Custom designs and large volumes quoted case by case. Free samples; first courier freight paid by buyer. Courier transit is additional.
Production	35-45 days for standard designs and moderate quantities. Custom designs and large volumes quoted case by case. Starting milestone and schedule to be agreed; testing and transit are separate.
Payment	T/T deposit before production, balance before shipment; commonly 30% deposit / 70% balance; final terms per contract. USD/CNY company-bank payment.
Shipping	Production in Xiantao, Hubei, China; shipment via Wuhan Yangluo Port. Confirm Incoterm, onward route and freight in the quotation.

Certification & intended use

No CE certification and no medical certification are currently available for our offered coveralls or our partner manufacturer. We do not claim Type 5/6 compliance. Supplier-owned reports do not certify these offered garments. Model A2 documentation requires verification against the ordered model and legal entity; no A2 result is extended to A1 or B.

Buyer-requested testing can be discussed for the exact model and legal entity. Scope, cost, timing and outcome require separate agreement. Destination-market entry requirements must be reviewed for the exact product, intended use and buyer requirements.

Discuss sample evaluation for non-medical, non-hazardous general industrial housekeeping or workwear soiling control, subject to workplace risk assessment. Do not select these unverified garments for hazardous chemical exposure, asbestos, infectious agents, medical procedures, flame or heat protection, explosive atmospheres, or tasks requiring certified PPE.
